Elder Phillip A. Bentley, Pastor

May 30, 2006.

Dear Mr. & Mrs Cohen,
Hope you both are doing well.

We just wanted to drop you a personal note, to say how deeply grateful we are for you coming along and partnering with us in the seminar on depression. Thank you for bringing this matter to the forefront of our minds, and helping to make it possible for us to have discussions on this issue.

I hope you share similar sentiments as we did, regarding the outcome of the event. I think it was worth the time and effort. The feedback we received was very positive, and I trust that someone was pointed in the direction to seek help if they need to, and in no way feel stigmatized because of their situation. Again I thank you, and the Cohen Foundation for your support.

We trust that doors have been opened to others, and good will continue to come out of your work and mission. We regret that we are not able to attend this year's June 4th conference. It is our youngest daughter's graduation. So far we do know of two persons who will be attending the conference. Much success in all your endeavors.

Sincerely,

Phillip & Joan Bentley
